ABOUT

At Atlanta Divorce Law Group, our mission is to help families find a new and healthy family dynamic. When children are involved, you and your ex-spouse are still connected for the rest of your lives. What was agreed upon during your divorce could have been what was best at that point, but that may not be what's best now. Circumstances change whether it's financial, living arrangements, or work requirements. Sometimes, the needs of your children have changed that may require a modification of custody or child support.

The next step is to determine if a modification is the best option for you. This Get Ready Kit has been designed to help you know what's involved in the process and how you can prepare now. You may even know this is the right step, but the timing may not be right. We will discuss several different steps in the process and what you can do now to prepare. Taking control now will help you have a clear mind once you decide to go through the process.

**WHAT DO YOU WANT
YOUR LIFE TO BE
LIKE IN A YEAR?**

A TYPICAL MODIFICATION PROCESS

There are typically several stages to a modification process. The next few pages will discuss the different stages and how you can prepare ahead of time for what is to come.

Not only will this provide you an opportunity to have a clear picture of your current financial situation, but in the case of children, you'll begin to develop a clear idea of what you want for them during and after this process.

It's important to note that not every case will go through every stage.

More amicable modifications will be completed through mediation, while more complex cases may involve a trial. The majority of cases are settled at mediation. This will be discussed further when you hire a law firm.

The last section will identify some items that will help as you co-parent in the future.

STEP 1: THE CONSULT

Once you've decided that a modification is what's necessary for you and your children to have a better life, the first step is to hire a law firm. We encourage you to hire a firm that makes you feel comfortable, safe, and empowered. The process can be expensive but to go with the cheapest law firm means you get what you pay for. There are many nuances in the law and many approaches and options available to you, so it's important to hire a firm that specializes in family law and are considered experts.

We believe that if you are provided a case strategy at your consultation, it's going to be a cookie cutter strategy based on other people's cases instead of the specific circumstances of your case. While experienced firms can give you an idea, a true strategy is created after your attorney has spent time digging into the facts of your case and is not something that can be given after a 30 minute conversation.

STEP 2: COMPLAINT/PETITION FOR MODIFICATION FILED

**LEGAL DOCUMENT NEEDED TO INITIATE THE CUSTODY
MODIFICATION FILED WITH THE CLERK OF THE COURT IN
THE APPROPRIATE COUNTY.**

WAYS TO PREPARE NOW

A. Gather necessary documents:

i. Your attorney will need all final pleadings from your previous cases:

1. Final Judgment and Decree of Divorce
2. Final Order of Legitimation
3. Parenting Plan
4. Child Support Worksheet
5. Child Support Addendum
6. Consent Order of Modification

ii. Your attorney will need any written communication from you and the other parent regarding informal modification of the parenting plan (e.g. did you send an email that said your ex-spouse could care for the minor children over the past weekend?)

iii. If the minor child is 14 or older, does he or she wish to elect to live with you?
*This is a delicate process, and your attorney should be intimately involved in obtaining necessary documentation to avoid any appearance of undue influence on the child.

2. Does the child have a new sibling?
3. Has one of the parents started dating seriously (introduced the child)?
4. Has the child aged so much since the entry of the last order, his/her needs have changed requiring changes to the agreement?
5. NOTE: Some major changes DO NOT (usually) QUALIFY as material change in circumstances, for example:
 - a) Natural change in school due to graduation (elementary to middle or middle to high)
 - b) Getting a pet
 - c) Getting a car/driver's license

viii. Are there any temporary issues that need immediate attention?
